POLYLIQUID

Decentralized Delegated Reputation Oracle

polyliquid.ai • March 2026 • One Pager

Polyliquid is the first attack-resistant oracle for prediction markets.

MARKET SIZE & DAY-1 REVENUE

$2.5B
resolved/mo via UMA
Jan–Feb 2026

$30B+
annual extrapolation
(conservative)

$30–100M
oracle TAM/year
at 0.1% fee

$3–10M
Foundation (10%)
per year

UMA VS POLYLIQUID

UMA (Current Oracle)

Attack cost: **$2.5M fixed** — same for $1M and $1B markets. Tokens not slashed.

March 2025: **$7M stolen**

July 2025: **$242M dispute**

Single DAO. Whitelist 37 addresses = centralization.

Polyliquid

Attack cost: **110–219% of market**. 100% slash = capital destroyed.

Dual DAO: PL DAO + Client DAO (e.g. Polymarket)

Client DAO FDV $10B+ = **unbribable**

Resolution: 8–16h (99%). Dual DAO: +48h if disputed.

MARKET OI	FEE (0.1%)	LP LOCKED	SLASH 100%	ATTACK / MARKET	DUAL DAO
$1M	$1K	$2.19M	$2.19M	**219%**	∞
$100M	$100K	$109.5M	$109.5M	**110%**	∞
$1B	$1M	$1.095B	$1.095B	**110%**	∞

STRESS TEST: $1B MARKET, $100M LP

1 Attacker buys
$10M YES @ $0.01
Potential $990M profit

2 Bribes R1 voters
~$75M
R1 alone: 7.5% of profit

3 Dual DAO stops it
FDV $10B+
Need >$5B to bribe >50%

4 Result
Attack fails
Loses $85M, gets $0

PROTECTION LAYERS

LAYER	MECHANISM	PROTECTION
R1: Voting	LP delegates to voters. Commit-reveal. W = Stake × Rep.	Attack 110–219%. LP exit detects collusion.
Dual DAO	2% bond → 48h parallel vote: PL DAO + Client DAO.	Must bribe BOTH. Client DAO FDV $10B+ = impossible.
Reputation	R(t) = Σ stake × 0.995^days. Half-life 138d. κ=1.0.	Cannot be bought. $10M + 0 rep = 0% influence.

ROADMAP

1 Q2–Q3 2026
Wisdom Markets / SoftSwiss
B2B iGaming: 400+ casinos, 6M MAU. $1B markets. $1M/mo protocol revenue, $100K/mo foundation revenue.

2 Q3–Q4 2026
Other prediction markets
Grow voters, points + airdrop. Prove reliability at scale.

3 2027
Polymarket
$2.5B+/mo resolved. Replace UMA. Permissionless markets. 110–219% vs UMA's $2.5M fixed.

KEY RISKS & MITIGATION

RISK	MITIGATION
Polymarket integration delayed	Service smaller clients → become industry standard. Onboard other platforms (Phase 2), grow voter base until Polyliquid becomes the de facto oracle.
Polymarket builds own oracle	Become first voters → earn $2–3M/year. Our experienced voter community becomes the largest voting block on their platform.

Money can be bought instantly. Trust cannot.
